Notes to Designers:

- All graphic files must be built at 150 dpi at the overall graphic layout size.
- All graphic files must be created using CMYK mode to ensure the best color matching. If you would like a specific color matched, you MUST provide a PMS color or we cannot guarantee color matching.
- It is best to flatten all images and outline all text to ensure that nothing will drop out or change during file transfer.
- Be aware of Safe Viewable Zone and Dotted Lines that may cut your graphic off. Keep important graphic elements such as text and logos within the dotted lines.
- The "Draped Zone" is visible, but keep in mind that this portion drapes down in the corners of the table.

Accepted File Formats:

- Photoshop (.PSD) - Illustrator (.AI) - Acrobat (.PDF) - Other (.TIF) (.EPS)
